For the State total "hits" see the top box on the convicted offender chart.  
 For the State Total number of DNA profiles in CODIS for both CO and Arrestee-see top chart on CO chart.  
 \*Note: periodic reconciliation will need to occur every 4-6 weeks to re-establish actual numbers at each point variance shouldn't be too large but with the removal of control samples, failed samples etc. It will be necessary to make minor adjustments.

~ this figure includes duplicate and non-qualifying samples.

The total "hits" box at the top of the chart reflects all hits against the data, (ie:case-to-case, other states to our state data, convicted offender& arrestee), whereas the total in the "hits" column of the chart is exclusively convicted offender hits

The hit totals for 1/1/07, 1/4/08 and 1/5/09 were adjusted based on computer calculated numbers and not hand generated calculations

Note: periodic reconciliation will need to occur every 4-6 weeks to re-establish actual numbers at each point variance shouldn't be too large but with the removal of control samples, failed samples etc. It will be necessary to make minor adjustments.
