

Meeting Summary
StateStat website, February 1, 2010

Agency: DJS

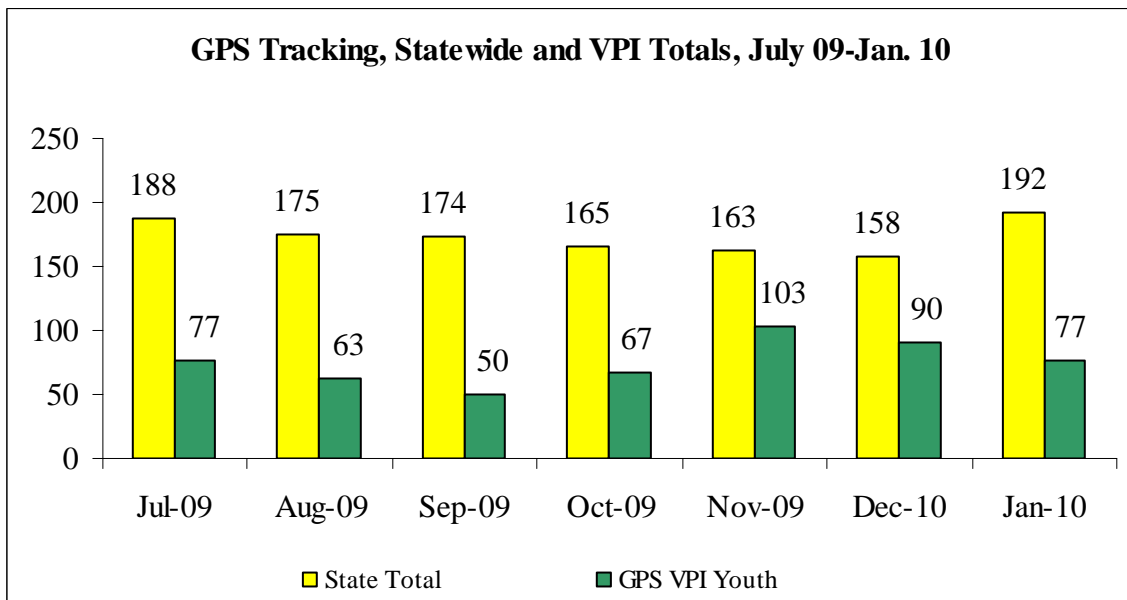

Date of Meeting: January 29, 2010

Template:

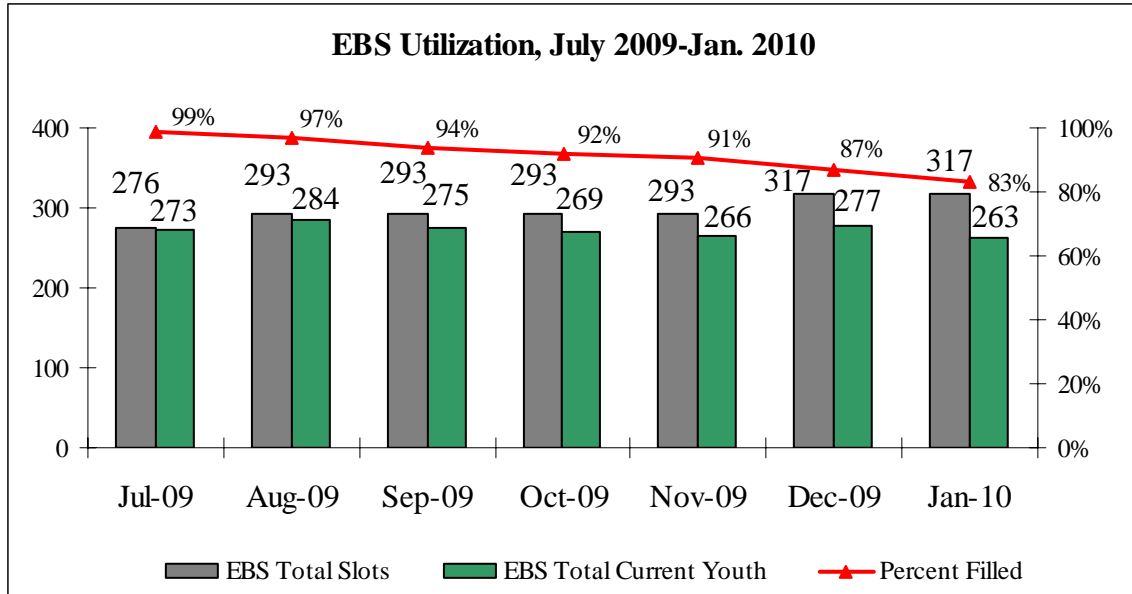

Following is a summary of issues discussed at the DJS Stat on January 29, 2010. Analysis is provided by StateStat and the Governor's Delivery Unit (GDU).

General Discussion

- **GPS Utilization.** DJS discussed the recent approval of more GPS units and DJS is working on accelerating the process of putting youth on GPS upon return into the community from placement.

- **EBS.** DJS stated that they are in the process of increasing Evidence Based Services in order to boost utilization and they are in the process of shifting resources for slots from Baltimore City to Prince George's County.

- Aftercare Contacts.** DJS was asked to comment on the significant decrease in Aftercare Contacts for youth in placement in November 2009. DJS reported that the number that was reported was incorrect due to a data error in Baltimore City and that the decline did not, in fact, occur.
